MARYLAND.

CAPITAL, ANNAPOLIS.

Population of State, 1,294,450.
(U. S. Census 1910.)
Number of Physicians, 2,078.

Maryland, one of the thirteen original states of the Union is situated between the parallels of 37 degrees 53 minutes and 39 degrees 44 minutes north latitude, and the meridians of 75 degrees 04 minutes and 79 degrees 33 minutes west longitude (the exact western boundary being yet undetermined), and is one of the upper tier of Southern States. It is bounded on the north by Pennsylvania on the south and west by Virginia, West Virginia and the District of Columbia, and on the east by the Atlantic ocean and Delaware. Its gross area is 12,210 square miles, of which 9,860 square miles are land surface; the included portion of the Chesapeake Bay 1,203 square miles, Assateague Bay on the Atlantic coast 93 square miles, with 1,054 square miles of smaller estuaries and rivers. The Chesapeake Bay ascends to within a few miles of its northern boundary, dividing the state into the eastern and western shores. The rivers, excluding mere estuaries of the bay, are the Potomac, Patuxent, Patapsco, Gunpowder, Susquehanna, Elk, Sassafras, Chester, Choptank, Nanticoke, Wicomico and Pocomoke, all emptying into the Chesapeake Bay. Besides these, the cost line of the bay is deeply indented with a multitude of creeks, coves and other estuaries penetrating the land in all directions, usually bearing the names of rivers and often navigable to some distance by vessels of light draft. Perhaps nowhere else in the world is there a coast line proportionately so expensive or any country offering such facilities for water transportation as tide-water Maryland. Along the ocean frontier runs a narrow reef of sand inclosing and sheltering Synepuxtent and Assateague bays, and giving inland navigation along the whole Atlantic coast of the state. Maryland presents a great variety of configuration, soil and climate. The four most westerly counties extend through the systems of mountain ranges known as the Allegheny and the Blue Ridge; east of these is the Piedmont region, gently inclining towards tide-water, and on both sides of the bay lies the Coastal Plain. The climate, tempered by the vicinity of the ocean and Chesapeake Bay, is on the whole mild and salubrious. The mean annual temperature of the middle portion of the state is 56, of the northern 54, and of the highest portions in the west about 50. The rainfall is abundant throughout the state and is largest on the western coast of Chesapeake Bay, where it averages about 50 inches.

LAW REGULATING THE PRACTICE OF MEDICINE IN MARYLAND.

As Codified in the Maryland Code of 1904 (Public General Laws) Article 43.
TITLE "HEALTH," SUB-TITLE, "PRACTITIONERS OF MEDICINE."
As Modified by Chapter 120, Acts of 1908.

PRACTITIONERS OF MEDICINE.

1888, art. 43, sec. 39. 1888, ch. 429. 1892, ch. 296. 1902, ch. 612.

Section 78. All persons now practicing medicine and surgery, or who shall hereafter begin to practice medicine and surgery in any of their departments, except dentistry, in the State of Maryland, shall possess the qualifications required by this sub-title.

Manger vs. Board of Examiners, 90 Md. 666. Scholle vs. State, 90 Md. 738.
Ibid. sec. 40. 1888, ch. 429. 1892, ch. 296. 1902, ch. 612.

79. From and after the first Tuesday in June, eighteen hundred and ninety-two, there shall be and continue to be two separate boards of medical examiners for the State of Maryland—one representing the Medical and Chirurgical Faculty of the State of Maryland, and one representing the Maryland State Homeopathic Medical Society of the State of Maryland. The members of said respective boards in office on the eleventh day of April, 1902, shall continue to hold and exercise their respective offices up to the first Tuesday in June, nineteen hundred and two. On the first Tuesday in June, nineteen hundred and two, said two boards of medical examiners shall be reorganized, and thereafter said boards shall be constituted as follows: Each of said boards shall consist of eight members, who shall be selected by the Medical and Chirurgical Faculty of the State of Maryland and the Maryland State Homeopathic Medical Society, respectively, at the annual meetings of said respective societies; and each appointee is immediately after his election to be furnished with a certificate thereof by the society electing him. Each such member of said respective boards, except those elected in the year nineteen hundred and two, shall serve for four years, or until his successor is appointed and qualified. At their respective annual meetings held in the year nineteen hundred and two, each of said aforementioned societies shall elect the full number of eight examiners for its respective board, of whom two shall be elected for four years, two for three years, two for two years, and two for one year, and thereafter two examiners shall be elected by each society in each year, as hereinbefore provided, to serve for a term of four years, or until their successors are appointed and qualified, the outgoing members to be eligible for re-election. The terms of office of all members so elected shall begin on the first Tuesday in June, in the year in which they shall be respectively elected; each board is to have the exclusive right to examine, pass upon the qualifications of and license its own applicants. The examiners shall be physicians actually engaged in the practice of medicine or surgery in the State of Maryland, and of recognized ability and honor. No member of any medical college or university, who passes upon the qualifications of graduates of any medical school shall be eligible to serve as a member of either of said boards. In case of a vacancy occurring in either of said boards, the board in which such vacancy shall occur shall fill the same until the next meeting of the Medical and Chirurgical Faculty, or the Maryland State Homeopathic Medical Society, according as the board in question may be the representative of one or other of said societies, when said society shall elect an examiner to serve for the remainder of such unexpired term.

1902, ch. 612, sec. 40A.

80. Each of said boards shall, at its meeting on the first Tuesday in June of each year, appoint a secretary-treasurer for the board, whose term of office shall last for one year, and who shall be eligible for re-appointment, and whose duties shall be as follows: Within sixty days from the time of his appointment by his respective board, it shall be the duty of the clerk of the Circuit Court of Baltimore City and the clerk of the Circuit Court for each county in the State to furnish the secretary-treasurer of each board a list of all physicians who have been legally registered in said court. To all those physicians who have at that time been practicing in the State without having been legally registered said secretary-treasurer shall send a printed notice of the section of this article relating to the duty of the police commissioners in Baltimore City and the sheriffs of the counties of the State under this law. Within four months of the time of his appointment he shall see that all physicians entitled to register have been registered, and that the names of all those who are not entitled to be registered under this sub-title have been presented for prosecution to the State's Attorney of the City of Baltimore, and of each county in the State in which the accused, respectively, reside. Those physicians, who, being entitled to register under this sub-title, yet have failed to comply at the expiration of this time—four months from the election of the secretary-treasurer of the board—shall also be prosecuted, and no one after the eleventh of April, 1902, shall be allowed to practice medicine or surgery without being duly registered according to the provisions of this sub-title. The secretary-treasurer shall keep the official records of the board for which he is secretary, as provided for in section 81 of this sub-title, the examination papers of applicants for at least three years, after which they are to be destroyed, and a complete list of all registered physicians in the entire State. He shall call to the attention of the State's Attorneys of Baltimore City and of the different counties throughout the State all violations of the law under this sub-title. He shall collect and hold all moneys belonging to the board, for which he shall give bond to the State of Maryland in the sum of $1,000, the same to be held by the President of the Board. He shall receive from the income of the board such salary as his respective board may determine.

1888, art. 43, sec. 41. 1888, ch. 429. 1892, ch. 296. 1902, ch. 612.

81. Each Board of Medical Examiners shall meet on the first Tuesday in June in each year for the purpose of reorganization. At said first meeting of said respective boards each of said boards shall effect an organization by the election from its own membership of a president, and shall also appoint a secretary-treasurer, as otherwise provided in this sub-title. For the purpose of examining applicants for license, each of said Boards of Medical Examiners shall hold one or more stated or

special meetings in each year, due notice of which shall be made public at such time and places as may be determined by the members thereof, respectively. At said stated or special meeting a majority of the members of the board shall constitute a quorum thereof. Each of said Boards of Medical Examiners shall keep an official register of all applicants for examination for a license to practice medicine and surgery in this State; said register for license shall show the name, age and last place of residence of each candidate, the school from which he or she may have graduated, and whether such applicant was rejected or licensed under this sub-title; but such matters shall not be written in said register or made public until after the examination.

1888, ch. 43, sec. 42. 1888, ch. 429. 1892, ch. 296. 1902, ch. 612.

82. At the first meeting of an examining board, or at a stated or special meeting held subsequently, suitable provision shall be made by each of the examining boards to prepare a schedule of written examination upon anatomy, physiology, medical chemistry, surgery, practice of medicine, materia medica, therapeutics, obstetrics and pathology, and the same standard of excellence shall be required from all candidates. In the department of therapeutics and practice the question shall be in harmony with the tenets of the school selected by the candidate; the standard of requirements therein to be established by each board for itself. Whenever members of any board are necessarily absent from meeting held for the examination of applicants for licenses, suitable temporary provision shall be made for thorough examination in each and all of the aforesaid subjects by members present. The examination shall be fundamental in character. The votes of all examiners present shall be "yes" or "no," written with their signature upon the backs of the examination papers of each candidate for the respective branches.

Ibid. sec. 43. 1888, ch. 429. 1892, ch 296. 1902, ch. 612.

83. All persons, except physicians who were practicing medicine in this State prior to the first day of January, 1898, who are now practicing medicine or surgery and can prove by affidavit that within one year of said date said physician had treated in his professional capacity at least twelve persons, who shall commence the practice of medicine or surgery in any of their branches after the eleventh day of April, 1902, shall make a written application for license to the president of either Board of Medical Examiners which said applicant may elect, accompanied by satisfactory proof that the applicant is more than twenty-one years of age, is of good moral character, has obtained a competent common school education, and has either received a diploma conferring the degree of doctor of medicine from some legally incorporated medical college in the United States or a diploma or license conferring the full rights to practice all the branches of medicine and surgery in some foreign country; said diploma, if from a college in the United States, must have been conferred by a legally incorporated college requiring a four years' standard of education as defined by the American Medical College Association or the intercollegiate committee of the American Institute of Homeopathy, respectively; provided, that this requirement shall not apply to any physician who shall, prior to the eleventh day of April, 1902, have practiced outside of this State for at least three years, and who shall have been duly registered or licensed in the place where he has so practiced; provided, further, that two courses of medical lectures, both of which shall be either begun or completed within the same calendar year, shall not satisfy the above requirements; provided, also, that in the case of students who on April 11, 1902, shall be in their second year in a medical college, a three years' course of study, or attendance on three courses of lectures delivered in different years, shall satisfy said requirements. Proof of the qualification of applicants as above shall, if required, be made by affidavits at the time of the making of said application and payment of fee as provided. The President of the Board to whom such application shall have been made, if satisfied with the same, shall direct the secretary-treasurer thereof to issue to said applicant an order for examination, and when said applicant shall have passed an examination as to proficiency satisfactory to said board the president thereof shall grant to such applicant a license to practice medicine and surgery in the State of Maryland. If the president of either Board of Medical Examiners shall have refused any application, either for want of the qualifications necessary to entitle such applicant to an examination, as hereinbefore provided, or for want of proficiency of such applicant upon being subjected to an examination, then the president of neither of said boards shall entertain or pass upon a subsequent application from said applicant until after the expiration of six months from the rejection of said previous application. The respective boards are authorized to license without examination applicants who present proper certificates of proficiency and professional standing at the time of application issued by the Boards of Medical Examiners of the District of Columbia and of other States, the requirements of which are of as high a standard as those governing the Boards of Medical Examiners of this State; provided, such boards of such States or District grant the same privileges to licentiates of the Examining Boards of Maryland; such applicants, however, being still required to furnish the same proof of qualifications required of other applicants by this section. Medical students, at the end of their second year of study, who have, as verified by the certificate of the dean of the college which they have attended, completed the studies of anatomy, physiology, medical chemistry and materia medica in said college, shall on application be examined in such studies by the State Licensing Board, the result of said examination to be considered as part of the final examination, the full regular fee to be paid at this time, no part thereof to be returned, but placed to their credit for the remainder of the examination yet to be taken. Medical students who have, as verified by the certificate of the dean of the college which they have attended, completed a full four years' course of studies and lectures, but who have not yet received their diplomas, shall upon application be examined in all the branches enumerated in section 82 by the State Licensing Board, the final certificate and license of the said board being withheld until the diploma of the proper medical college, with the candidate's name inscribed, be produced to the Secretary of the Board. Diplomas presented by graduates of foreign colleges shall be accepted if a course of four years' study has been required by said foreign college before issuing such diploma.

Manger v. Board of Examiners, 90 Md. 666. Scholle v. State, 90 Md. 738.
1902, ch. 612, sec. 43a.

84. Any physician who may change his residence from the District of Columbia to the State of Maryland, or who while living in the District of Columbia shall desire to practice medicine or surgery in the State of Maryland shall, upon application to the Examining Board of the State of Maryland, be entitled to a license without fee

and without examination; provided, that the application be properly endorsed at the time it is presented by the Examining Board of the District of Columbia, certifying to the proficiency and professional standing of the applicant; and provided, further, that the Examining Board of the District of Columbia shall, under the laws thereof, grant like and equal privileges to licensed physicians of this State who may remove to said District of Columbia, or while continuing to reside in this State may desire also to practice in said district.

1888, art. 43, sec. 44. 1888, ch. 429, sec. 6. 1892, ch. 296.

85. All examinations shall be conducted in such manner that the name, school of graduation and preparatory training of said applicant shall not be made known to the Board of Examiners until his examination papers have been graded. An applicant receiving a majority of the votes of the board before whom the applicant appears shall be considered to have passed a satisfactory examination and entitled to the license of said board.

1888, art. 43, sec. 45. 1888, ch. 429, sec. 7. 1892, ch. 296. 1902, ch. 612.

86. A fee of twenty dollars shall be paid to the Secretary-Treasurer of the Board, before whom the applicant appears, before such examination is had, which payment shall entitle said applicant to a second examination, in case of failure, at the expiration of six months and within twelve months thereafter; said fee to be applied by said board toward paying the expenses of said board.

Ibid. sec. 46. 1888, ch. 429, sec. 8. 1892, ch. 296. 1902, ch. 612.

87. The board shall refuse to grant a license to any applicant who may be radically deficient in his examination in any essential branch; provided, that in any case of failure at any such examination, the candidate shall not be permitted to take another examination before either board until after the expiration of six months from the date of his rejection; provided, however, that any applicant who has heretofore, during the previous year before the eleventh day of April, 1902, or who shall hereafter so fail, shall be credited as having passed in such branches as he has or shall have been found proficient in, and he shall not be again examined in said subjects.

Ibid. sec. 47. 1888, ch. 429, sec. 9. 1892, ch. 296. 1894, ch. 217.

88. Every license to practice medicine and surgery issued pursuant to the provisions of this sub-title, shall be subscribed by the president and secretary of the board before whom the applicant has passed; it shall also have affixed to it by the person authorized to affix the same, the seal of said Medical and Chirurgical Faculty of Maryland, or of the Maryland State Homeopathic Medical Society, as the license may require; every such license to be in the following form and to the following effect:

1892, ch. 296, sec. 48. 1902, ch. 612. 1904, ch. 690.

89. Any person receiving a license from either of said boards shall file the same at once with the Clerk of the Circuit Court of the county in which he or she may reside, or with the Clerk of the Circuit Court of Baltimore City, if said person shall reside therein, and it shall be the duty of said Clerk to register the name of said person and of the president of the board signing said license in a book kept for the purpose, as a part of the records of his office; and the number of the book and the page therein containing said recorded copy shall be noted by said Clerk upon the face of said license. In case said person should, after the recording of such license, permanently remove his or her residence to some other part of the State, or to Baltimore City, he or she shall thereupon at once file said license, or certified copy thereof, for record as aforesaid, with the Clerk of the Circuit Court of the county or city to which he or she shall have so removed; said records shall be opened to public inspection under proper restrictions as to their safe keeping, and in all legal proceedings shall have the same weight as evidence that is given to the records of conveyances of lands. The fees for such registration shall be fifty cents, to be paid by the person whose license is registered. 1892, ch. 296, sec. 50.

90. Any person to whom the provisions of this sub-title applies, practicing or attempting to practice medicine or surgery in this State, without first having obtained the license of one of said Boards of Medical Examiners, shall be guilty of a misdemeanor, and shall pay a fine of not less than fifty dollars nor more than two hundred dollars for each offense, or in default of payment shall be confined in the city or county jail until the fines and costs are paid, and shall be debarred from recovering compensation for services rendered as such physician or surgeon.

Every person who was practicing medicine in the State of Maryland on or before the first day of June, 1892, shall be entitled to be registered as a physician or surgeon, or both, upon making application to the president of either Board of State Medical Examiners, which application shall be in writing and verified by the oath of said applicant, taken before any officer entitled to administer oaths under the law of this State, and shall state that the applicant was a duly qualified lawful practitioner of medicine, in good standing, actually engaged in the practice of such profession in said State, on or before said first day of June, 1892. And upon receiving said application, and being satisfied of the truth of said statement therein contained, said president of such board shall issue or endorse his permit for such applicant to be registered upon a copy of such application, which permit shall also be countersigned by the secretary of said board; and any president of such board to whom such application is addressed may, in his discretion, make inquiry, and examine witnesses under oath, or receive other evidence as to the truth of the statements contained in such application for a permit to be registered; and if the president of either of such Boards of Medical Examiners shall act upon such application, and shall refuse the same, then no president of the other of said boards shall entertain or act upon any application of such applicant for such permit. And upon the presentation of a permit to be registered signed by the president and countersigned by the secretary of either of said Boards of Medical Examiners, to the Clerk of the county where such applicant may reside, or to the Clerk of the Circuit Court of Baltimore City, if said applicant shall reside in Baltimore City, it shall be the duty of the said Clerk to register such application and permit, and the name of such applicant as physician or surgeon, or both, in a book to kept for such purpose, and a certified copy of such entry of registration under the seal of the Court, shall be legal evidence of such registration in all the Courts of the State; provided, however, that the provisions of this sub-title shall not apply to those practicing medicine in the State of Maryland prior to June, 1892, and who registered as practitioners of medicine prior to July, 1894.

Manger v. Board of Examiners, 90 Md. 666. Scholle v. State, 90 Md. 738.
1894, ch. 217, sec. 55.

95. All persons who have commenced to practice medicine or surgery in the State of Maryland since the first day of June, 1892, or who shall hereafter commence to practice medicine or surgery in this State, shall not be entitled to be registered in the registry of physicians and surgeons, as required by law, except upon filing with the Clerk of the Circuit Court of the county or city in which he or she shall reside, a license from one of the duly constituted Boards of Medical Examiners of this State, in accordance with the terms of sections 88 and 89, except that physicians and surgeons who have come into this State since said first day of June, 1892, or who shall hereafter come into this State to follow the practice of medicine and surgery, may receive a license, which shall entitle them to be registered as physicians and surgeons, in accordance with law, upon application to one of the duly constituted Boards of Medical Examiners, in accordance with the provisions of section 96 of this sub-title.

1894, ch. 217, sec. 56. 1896, ch. 194.

96. Physicians and surgeons of good moral and professional standing who shall hereafter come into this State with intent to follow the practice of medicine and surgery within this State, being graduates of a medical college or university of good standing, or having a certificate or license from a Board of Medical Examiners of any State where the requirements for practice are equal to those required by the board named in this sub-title, may make application to the president of either Board of Medical Examiners of this State, which application shall be made under oath, and shall state when and how long such applicant has been engaged in the practice of medicine and surgery, and from what medical college, university or other institution of learning he or she has graduated. And thereupon the Board of Medical Examiners shall have the authority and discretion to require applicants to undergo an examination, in accordance with provisions of sections 81 to 87, inclusive, or may require said applicant to submit to a special examination, the terms and methods of which shall be prescribed by the Board of Medical Examiners, and upon paying the fee for examination, as set out in section 86. After the examination and determination of said board, thereupon, that said applicant is qualified to practice medicine and surgery and that he is entitled to a license, a license shall be issued to him to the same effect as the form of license set out in section 88, which license shall be filed and recorded as provided by section 89, and it shall then be the duty of the Clerk of the Court to register the name of the person so licensed as physician or surgeon, or both, in accordance with the provisions of this sub-title.

1894, ch. 217, sec. 57.

97. Ibid. sec. 58.

98. If any person shall unlawfully obtain and procure himself to be registered as physician or surgeon, either by false and untrue statement contained in his application to the Clerk of the Court, as required by this sub-title, or by presenting to said Clerk a false or untrue license, or one fraudulently obtained by false and fraudulent statements made to one of said Boards of Medical Examiners, he or she shall be deemed guilty of a misdemeanor, and shall be fined not less than fifty dollars nor more than five hundred dollars, and shall forfeit all rights and immunities obtained or conferred upon him by virtue of such registration as physician or surgeon.

1896, ch. 194, sec. 61.

100. Any citizen of Maryland having information which causes him to believe that any person has been heretofore wrongfully and improperly registered as physician or surgeon, or both, upon his application to the Clerk of any Court may apply, by petition, to the Circuit Court of the county wherein such registration was made, or to the City Court of Baltimore City, if such registration was in Baltimore City, which petition shall be under oath, and shall state that the petitioner is informed and believes that the person named therein has been heretofore improperly and wrongfully registered as physician or surgeon, or both, upon his own application and affidavit upon the register of physicians or book kept for such purpose in any Court of this State, for the reason (as said petitioner is empowered) that such person was not lawfully practicing medicine in the State of Maryland as a duly qualified practitioner of medicine in said State entitled to be registered as a physician or surgeon upon his own application to the Clerk of said Court; and that said petitioner prays that the name of such person shall be struck from the registry of physicians aforesaid. Upon the filing of such petition the Court or one of the judges thereof shall pass an order requiring the person therein alleged to be wrongfully or improperly registered to answer the same, under oath, on or before a date to be named within thirty days from the date of such order, and to show cause, if any there be, why the prayer of such petition should not be granted, which order shall be served upon said last named person; and if said petition shall not be answered within the time named, as aforesaid, or if the answer thereto shall be adjudged insufficient by the Court, then the Court shall pass an order directing that the name of such person alleged to be wrongfully or improperly registered shall be stricken from the registry of physicians or surgeons where the same shall have been registered; but if said petition shall be answered by the defendant, being the person against whom it is exhibited by an answer under oath, fairly and fully denying the allegations of said petition, the issues thus raised shall be heard and determined by the Court, and either party may be entitled to a jury trial before a jury of the regular panel empanelled to try common law cases in said Court; and the defendant shall be competent and compellable to testify at such hearing, and upon such hearing the Court shall render judgment with costs against the unsuccessful party. And if it shall determine that said defendant was not practicing medicine in the State of Maryland on or before the date of June 1, 1892, not being a lawful practitioner of medicine in said State, on or before said date, it shall pass an order directing the name of said defendant to be stricken from the registry of physicians or surgeons, or both, which order shall be certified by the Clerk of the Court wherein said defendant was registered, and he shall thereupon strike his name from said registry. But the decision upon such petition shall have no force and effect in any criminal prosecution under this sub-title.*

1902, ch. 612, sec. 61.† 1908, ch. 120.

101. Any person shall be regarded as practicing medicine within the meaning of this sub-title who shall append to his or her name the words or letters "Dr.," "Doctor," "M. D.," or any other title in connection with his name, with the intent thereby to imply that he or she is engaged in the art or science of healing, or in the practice of medicine in any of its branches, or who shall operate on, profess to heal, prescribe for, or otherwise treat any physical or mental ailment or supposed mental ailment of another, or who shall for hire or for any gratuity or compensation, either directly or indirectly to him or her paid, undertake by any appliance, operation or treatment of whatever nature, to cure, heal or treat any bodily or mental ailment or supposed ailment of another; or who for any hire, gratuity or compensation, either directly or indirectly to him or her paid, by or for any patient, shall undertake to treat, heal, cure, drive away or remove any physical or mental ailment, or supposed ailment of another, by mental or other process, exercised or invoked on the part of either the healer or the patient, or both; but nothing herein contained shall be construed to apply to gratuitous services, nor to any resident or assistant resident physicians or students at hospitals in the discharge of their hospital or dispensary duties, or in the office of physicians, or to any physician or surgeon from another State, Territory or District in which he resides when in actual consultation with a legal practitioner of this State; or to commissioned surgeons of the United States army, or navy, or insane hospital service, or opticians or chiropodists, or to midwives, or to masseurs, or other manual manipulators who use no other means; nor shall the provisions of this sub-title apply to physicians or surgeons residing on the borders of a neighboring State, and duly authorized under the laws thereof to practice medicine or surgery therein, whose practice extends into the limits of this State; provided, that such practitioners shall not open an office or appoint places to meet their patients or receive calls within the limits of this State without complying with the provisions of this sub-title; provided, that the same privileges be accorded to licensed physicians of this State; provided, further, that nothing in this sub-title shall annul any of the provisions of Article 32, title "Dentistry," nor shall apply to any registered graduate of dental surgery now practicing in the said State of Maryland, with the sign titles: "Dentist, surgeon dentist, dental surgeon or stometelogist; and provided, further, that nothing herein contained shall be so construed as to prevent or in any way make unlawful or interfere with the sale by manufacturing, wholesale or retail druggists, or any persons dealing in drugs or medicines of any proprietary or patent medicine or any official or standard drug or medicine.

*Section 60 of 1894, ch. 217, is omitted here because it is identical with section 51 of 1892, ch. 296, and is embraced in section 101, post page 13.

*In the Supplement of 1900, title "Health," sub-title "Practitioners of Medicine," pages 339, 340, this section called Section 61 in 1896, ch. 194, was numbered 60, and Section 62, of 1896, ch. 194, was numbered 61. By 1902, ch. 612, Section 62 of 1896, ch. 194, was erroneously called 61 (the number being taken from the Supplement), and was repealed and re-enacted as 61, thus leaving Section 61, as numbered in 1896, ch. 194, still in force. Hence it is retained.

Should have been numbered 62 in 1902, ch. 612.

1902, ch. 612, sec. 61a.

102. It shall be the duty of the Police Commissioners of Baltimore City, and of the Sheriff of each county in the State, to see that all practicing physicians in the State shall be legally registered according to the provisions of this sub-title, and to report to the State's Attorney of the city or county all cases of the violation of the provisions of this sub-title.

1896, ch. 194, sec. 63.

103. It shall be the duty of the secretary of either or both of said State Boards of Medical Examiners to inquire into all violations of law under this article and to institute all proceedings or prosecutions thereof, and all expenses incurred by any secretary of either of such boards hereunder shall be allowed and paid out of the funds acquired by or belonging to said boards, respectively.

1896, ch. 194, sec. 64.

104. The said Board of Medical Examiners shall have full control over the expenditures and disposition of the funds collected from the fees and charges authorized to be made under the terms of this sub-title, and shall fix and allow such compensation as they may deem proper for services rendered in the performance of the duties required by this sub-title by members of said board or others, with the full power also to allow and discharge all proper expenses of said board, and any surplus, to dispose of as said board may deem for the advantage of the practice of medicine in this State.

1902, ch. 612, sec. 64.

105. Any person practicing or attempting to practice medicine under the name of any other person, whether that person be a resident of this State or not, or whether he or she be deceased or not, or any person acting under the name of and as agent of any other person, in the capacity of a practitioner of medicine or surgery, shall be guilty of a misdemeanor, and upon conviction by any court having criminal jurisdiction shall be punished by imprisonment in the city or county jail for not less than thirty days nor more than one year, or by a fine of not less than twenty dollars nor more than five hundred dollars, or both, in the discretion of the court, for each offense.

Ibid. sec. 65.

106. Either Board of Medical Examiners of this State may, by a vote of five members, revoke any license which it has issued, and may cause the name of any physician licensed by said board to be removed from the register of the licentiates of the city or county where it may be recorded for any of the following causes, to-wit: The use of fraud or deception in passing the examination provided in this sub-title, habitual drunkenness, criminal abortion, conviction of crime involving moral turpitude or unprofessional or dishonorable conduct. Before proceeding to revoke any such license, the person against whom complaint is made shall be furnished with a copy of the complaint and charges made against him, and shall be given an opportunity for a hearing before the board, in person or by attorney, and at such hearing testimony may be offered for and against the accused. The action of the board shall be reduced to writing, stating also the reasons for said action, and a copy thereof shall be delivered or mailed to the person against whom complaint is made; within sixty days after said notice of revocation of license shall have been delivered or mailed to any person said party shall have the right of appeal to the Circuit Court of the city or county wherein he may reside, the judge or judges of which said court shall fully hear and determine all matters connected with the action of said board from which appeal is taken, and the decision of said court shall be final; should no such appeal be taken within sixty days, or should said appeal result in the affirmation of the action of said board, the Clerk of the Circuit Court or Courts where said license so revoked shall have been recorded shall, upon due notice from the secretary-treasurer of said board, strike off the name of said party from the list of licensed practitioners recorded upon said register. At any time within two years from the revocation of any license, the board revoking the same may, by a vote of five members, issue without examination a new license to the person whose license was so revoked; but after the expiration of two years such person can obtain a new license only by compliance with the same requirements which are imposed on other applicants for licenses under this sub-title.

A well equipped Sanitarium for the treatment of MENTAL and NERVOUS DISEASES, DRUG and ALCOHOLIC HABITS, etc.

The Sanitarium is located about one mile west of the Baltimore city limits. The building is large and commodious, of pleasing architecture, and is well lighted, both naturally and artificially. The rooms are ample and airy and provided with all necessary comforts and conveniences.

The grounds, comprising twenty acres, quite elevated and afford a splendid view of the surrounding country, with glimpses of the City and the Bay. They are well shaded with ornamental and forest trees.

CAPITAL, BOSTON.

Population of State 3,366,416.
(U. S. Census, 1910).
Number of Physicians, 5,285.

The State of Massachusetts, which was included in the original thirteen, extends from 41 degrees 15 minutes to 42 degrees 55 minutes north latitude and from 69 degrees 56 minutes to 73 degrees 31 minutes west longitude, and comprises an area of 7,800 square miles, or 4,992,000 acres. It is bounded on the north by Vermont and New Hampshire, on the east by the Atlantic ocean, on the south by Rhode Island and Connecticut, and on the west by the State of New York.

The climate is cool and salubrious, the winters being severe and long and the summers warm but short. The mean annual temperature as observed at New Bedford during a period of 58 years is 48.56 degrees, that of the summer 66.95 degrees, and of the winter 30.21 degrees. The average annual rainfall is about 45 inches.

The surface of the state is greatly diversified. For some distance inland from the coast the country presents a somewhat level appearance, rising gradually into a hilly region in the central portion of the state and mountains in the western. It is well watered by numerous rivers and many small lakes or ponds. The state has long held the reputation of being the foremost educational center in the Union. Harvard University, the "Cambridge" of America, the oldest and one of the wealthiest institutions of learning in the United States, was founded in 1636 at Cambridge, and to this state is credited the honor of first instituting that system of public schools which has now made such giant progress throughout the entire Union. The most fertile sections are the valleys of the Connecticut and other rivers, but the greater part of the state is moderately productive. Hay, wheat, corn, rye, oats, potatoes and tobacco are the principal crops. Cranberries are grown in the southeastern portion. Massachusetts is pre-eminently a manufacturing state, ranking third in the United States in this respect. In the production of textile fabrics and leather goods, it stands at the head of American industries, also in the quantity and value of granite produced, and as regards its fishery interests. Machinery, jewelry, watches, paper, cycles, woodenware, firearms, clothing, etc., stand high on the list of its staple manufactures.

THE LAW RELATING TO THE REGISTRATION OF PHYSICIANS.

(Revised Laws, Chapter 76. Sections 1-9.)

Section 1. There shall be a Board of Registration in Medicine consisting of seven persons, residents of this commonwealth, who shall be graduates of a legally chartered medical college or university having the power to confer degrees in medicine, and who shall have been for ten years actively employed in the practice of their profession. No member of said board shall belong to the faculty of any medical college or university, and no more than three members thereof shall at one time be members of any one chartered state medical society. One member thereof shall annually in June be appointed by the Governor, with the advice and consent of the council, for a term of seven years from the first day of July following.

Sec. 2. Said board shall hold regular meetings on the second Tuesday of March, July and November in each year, and additional meetings at such times and places as it may determine. At the regular meeting in July, it shall organize by the choice of a chairman and secretary who shall hold their offices for the term of one year. The secretary shall give a bond to the treasurer and receiver general in the penal sum of five thousand dollars, with sufficient securities to be approved by the Governor and council, for the faithful performance of his official duties.

Sec. 3. Applications for registration shall be made upon blanks to be furnished by the board, and shall be signed and sworn to by the applicants. Each applicant for registration shall furnish satisfactory proof that he is twenty-one years of age or over and of good moral character and upon payment of a fee of twenty dollars shall be examined by said board. If he be found by four or more members thereof to be 21 years of age or over, and of good moral character, and qualified, he shall be registered as a qualified physician and shall receive a certificate thereof signed by the chairman and secretary. An applicant who fails to pass an examination satisfactory to the board, and therefore refused registration, shall be entitled within one year after such refusal to a re-examination at a meeting of the board called for the examination of applicants, without the payment of an additional fee; but two such re-examinations shall exhaust his privileges under his original application. Said board, after hearing, may by unanimous vote revoke any certificate issued by it and cancel the registration of any physician who has been convicted of a felony or of any crime in the practice of his profession. All fees received by the board shall, once a month, be paid by its secretary into the treasury of the commonwealth.

Sec. 4. The Secretary of the Board of Registration in Medicine shall receive a salary of twenty-five hundred dollars a year, and other members of said board shall each receive a salary of three hundred dollars a year.

Sec. 5. The board shall keep a record of the names of all persons registered hereunder, and of all money received and disbursed by it, and a duplicate thereof shall be open to inspection in the office of the secretary of the commonwealth. Said board shall annually, on or before the first day of January, make a report to the Governor of the condition of medicine and surgery in this commonwealth, of all its official acts during the preceding year and of its receipts and disbursements.

Sec. 6. The board shall investigate all complaints of the violation of the provisions of section 8, and report the same to the proper prosecuting officers.

Sec. 7. Examinations shall be wholly or in part in writing in the English language, and shall be of a scientific and practical character. They shall include the subjects of anatomy, surgery, physiology, pathology, obstetrics, gynecology, practice of medicine and hygiene, and shall be sufficiently thorough to test the applicant's fitness to practice medicine.

Sec. 8. Whoever, not being lawfully authorized to practice medicine within this commonwealth and registered as aforesaid, holds himself out as a practitioner of medicine, or practices or attempts to practice medicine in any of its branches, or whoever practices medicine or surgery under a false or assumed name, or under a name other than that by which he is registered, or whoever personates another practitioner of a like or different name, shall, for each offense, be punished by a fine of not less than one hundred nor more than five hundred dollars, or by imprisonment for three months, or by both such fine and imprisonment. In a case in which a provision of this or the preceding section has been violated, the person who committed the violation shall not recover compensation for services rendered.

Sec. 9. The provisions of the eight preceding sections shall not be held to discriminate against any particular school or system or medicine, to prohibit medical or surgical service in a case of emergency, or to prohibit the domestic administration of family remedies. They shall not apply to a commissioned medical officer of the United States army, navy or marine hospital service in the performance of his official duty; to a physician or surgeon from another State who is a legal practitioner in the State in which he resides, when in actual consultation with a legal practitioner of this commonwealth; to a physician or surgeon residing in another State and legally qualified to practice therein, whose general practice extends into the border towns of this commonwealth, if such physician does not open an office or designate a place in such towns where he may meet patients or receive calls; to a physician authorized to practice medicine in another State, when he is called as the family physician to attend a person temporarily abiding in this commonwealth; nor to registered pharmacists in prescribing gratuitously, pharmacists, clairvoyants, or persons practicing hypnotism, magnetic healing, mind cure, massage, Christian science or cosmopathic method of healing, if they do not violate any of the provisions of section 8.

WALKONME ARCH PROP

PAT. NOV. 1, 1904

The WALKONME ARCH PROPS are made of light, soft leather for the top, and a soft felt for the under, with a light, wide arch of steel in between the two, making what would be termed a cushion arch.

They are light in weight, (the largest size weighing less than five ounces to the pair) strong and durable, can be worn without any discomfort to the wearer and are hardly noticeable in the shoe after the first day's wearing. We guarantee every pair and will replace free of charge, any pair that should break down while worn in the shoe.

The WALKONME ARCH PROPS are $1.00 the pair delivered.

We have a Special Proposition to the general practitioner, which we will submit by addressing the Home Office.

CAPITAL, LANSING.

Michigan, originally a portion of the famous "Northwest Territory," was admitted into the Federal Union January 26, 1837. It is located on the British American frontier and is separated from the Dominion of Canada by Lakes Superior, Huron and St. Clair, and their connecting straits. It extends, approximately, from latitude 41.7 degrees to 47.48 degrees, and from longitude 82.41 degrees to 90.54 degrees, and covers an area of 56,451 square miles. It is divided into two parts—the Lower and Upper Pninsulas—which are separated by the Straits of Mackinac and contiguous waters. Although united politically these two divisions are thus disjointed geographically, and they also differ widely in physical characteristics and resources. The Lower Peninsula is for the most part level and prairie like, or moderately rolliing and excellently adapted to agriculture; while the Upper Peninsula is hilly and rugged and even mountainous, and is distinguished principally for its abundant mineral resources. The Lower Peninsula is bounded on the east by Lake Huron, the St. Clair river, Lake St. Clair, the Detroit river and Lake Erie, on the west and northwest by Lake Michigan, on the northeast by Lake Huron, and on the south by Indiana and Ohio. It is 277 miles long from north to south, and its greatest width is 259 miles. It has an area of 33,871 square miles, or 21,677,184 acres. The Upper Peninsula is 318 miles long, east and west; and its greatest breadth is 165 miles; with an area of 22,580 square miles, or 14,451,456 acres. It is bounded on the north by Lake Superior, on the south by Lakes Michigan and Huron, on the southwest by the State of Wisconsin, and on the east by the St. Mary's river. These great waters give the state a shore line of 1,620 miles, and being at the head of lake navigation, where the products of the west aim to reach water transportation to the seaboard, they have contributed immensely to the state's commercial prominence and prosperity.

The climate is mild, but the temperature varies considerably, the mean annual temperature as observed at Fort Mackinac being 41.02 degrees and at Detroit 47.25 degrees. The average annual rainfall varies from 23 inches at Mackinac to 30 at Detroit.

But in the event that one or more of the societies above named, through their presidents or secretaries shall from any cause neglect, omit or refuse to file as aforesaid, such lists or list, then and in that case the Governor shall appoint or fill the vacancies in said board without reference to such list or lists which the aforesaid society or societies have for any cause neglected, omitted or refused to file with the Secretary of State, as herein mentioned aforesaid; but the number of representatives from each of the schools of medicine shall be the same as provided for in this act. No member of said board shall belong to the faculty of any medical college or university. The Board of Registration in Medicine shall, from time to time, adopt and publish a minimum standard of medical education, and no medical college shall be approved and designated by said board under this subdivision one, of section three, unless, in the judgment of the board, it conforms with such standard; provided, that any raising of the standard of medical education, including preliminary education, by the board under this provision shall not go into effect until at least one year after its adoption and publication by the board. And provided further, that the standard of preliminary education under the provisions of this act shall not exceed the standard fixed for admission to the literary department of the University of Michigan.

2d. The applicant shall be registered and given a certificate of registration if he shall present a certified copy or certificate of registration or license which has been issued to said applicant in any foreign nation where the requirements of registration shall be deemed by said Board of Registration in Medicine to be equivalent to those of this act. Provided, such country shall accord a like privilege to holders of certificates from this board. The fee for registration for applicants of this class shall be fifty dollars.

The creation of such misdemeanor by this act shall not be construed to supersede any existing remedy or punishment, whether civil or criminal, for any act embraced within the provisions of this act, but shall be construed to be in addition thereto. The Board of Registration in Medicine shall, upon the filing with it of a duly certified copy of a final conviction, obtained in accordance with the provisions of this act, revoke or suspend for a limited period, not less than six months, the certificate of the person so convicted. Said board may, after fair hearing, revoke any certificate of registration heretofore or hereafter granted upon mistake of material fact or by reason of fraudulent misrepresentation of fact by such applicant. St. Joseph Sanitarium and Bath House, Mt. Clemens MICH.

OPEN WINTER AND SUMMER.

HOW TO REACH MT. CLEMENS, MICH.—The Grand Trunk Railway runs through Mt. Clemens. Two electric lines run from Detroit to Mt. Clemens. Each runs cars every half hour and each carries baggage.

Analysis of the Sulpho-Saline Mineral Waters:

The following analysis, exhibits in grains per imperial gallon, constituents of the well of St. Joseph Sanitarium. Comparison with other waters demonstrates that it is the real Mt. Clemens elixir:

DUFFIELD'S LABORATORY,
Dearborn, March 23.

MINNESOTA.

CAPITAL, ST. PAUL.

Population of State, 2,075,708.
U. S. Census 1910.)
Number of Physicians, 2,094.

Minnesota was organized as a territory March 3, 1849, and admitted as a state May 11, 1858.

The state extends from 43 degrees 30 minutes to 49 degrees north latitude, and from 90 to 97 degrees west longitude, having an area of 79,205 square miles. On the north it is separated from Ontario, Canada, by the Pigeon and Rainy Lake rivers, with the exception of a few miles on the divide between the head waters of these two river systems, where the boundary is an arbitrary line. West of the point where the Rainy Lake river discharges its waters into Lake of the Woods, it is bounded on the north by that lake, and, for a distance of some 80 miles, by Manitoba. The eastern boundary is formed by Lake Superior and the St. Croix and Mississippi rivers, with about 40 miles of political boundary between the head of the lake and the point where the St. Croix river bends to the east into Wisconsin. On the south the parallel of 43 degrees 30 minutes separates it from Iowa, and on the west it is bounded by South Dakota to the southern end of Big Stone lake, above which point this lake, Lake Traverse and the Bois des Sioux and the Red River of the North form its limit and separate it from North Dakota. Its shape is irregular, the mean length being 348 and the breadth 244 miles.

Minnesota is, in area, the tenth state of the Union. It contains 84,287 square miles, or about 53,943,379 acres, of which 3,608,012 acres are water. In altitude it appears to be one of the highest portions of the continent, as the headwaters of three great river system are found in its limits, those of streams flowing northward to Hudson Bay, eastward to the Atlantic ocean, and southward to the Gulf of Mexico.

About half of this surface, on the south and west, consists of rolling prairie, interspersed with frequent groves, oak openings and belts of hardwood timber, watered by numberless lakes and streams, and covered with a warm, dark soil of great fertility. The rest, embracing the elevated district immediately west and north of Lake Superior, consists mainly of rich mineral ranges and of the pine forests which clothe the headwaters of the Mississippi, affording very extensive supplies of lumber. There is but a very small percentage of broken, rocky or worthless land in the state. Nearly all is arable.

Surveys with leveling from the sea show that the shore of Lake Superior is the lowest land in the state, 602 feet above sea level. The waters of the northeastern part of the state south of the Mesabi iron range flow into Lake Superior, and are carried to the Atlantic ocean. The Mississippi river, having its chief source in Lake Itasca, at 1,466 feet elevation, runs in a southerly direction, leaving the state at 620 feet above sea level.

The Red River of the North, rising in the north, near Itasca Lake, at a height of 1,600 feet above the ocean, after a circuitous route south and west to Breckenridge, in Wilkin county, and

then flowing north along its great valley, leaves the state at an elevation of 750 feet. The average elevation of the state is given at about 1,275 feet. The highest elevation is the Misquah hills, in Cook county, 2,230 feet.

The elevation of Minnesota above the sea, its fine drainage and the dryness of the atmosphere, gives it a climate of unusual salubrity and pleasantness. It has an annual mean temperature of 44 degrees, while its mean summer temperature is 70 degrees, the same as that of Middle Illinois and Ohio, Southern Pennsylvania, etc.

MEDICAL PRACTICE ACT OF MINNESOTA.

Laws Regulating the Practice of Medicine and Surgery in the State of Minnesota. (Chapter 35, Revised Code of 1905, in effect March 1, 1906.) Sections 2295-2300.

Section 2295. Board of Medical Examiners, Officers, Records: The State Board of Medical Examiners shall consist of nine qualified resident physicians, appointed by the Governor, each for the term of three years and until his successor qualifies. No member thereof shall serve for more than two successive terms, nor shall any instructor or person financially interested in a medical school be appointed thereto; and it shall at all times include three homeopathic physicians. Vacancies shall be filled by like appointment for the unexpired term. The board shall elect from among their number a president, a secretary and a treasurer, and shall adopt a seal. It shall hold examinations at the seat of government on the first Tuesday in January, April, June and October of each year, and at such other times as it shall deem best. The secretary shall keep a record of all its proceedings, including a register of all applicants for license, giving their ages, a description of their education in medicine, and the result of their examination. Said books and register shall be prima facie evidence of all the matters therein recorded.

Sec. 2296. Examination and License: A person not already authorized to practice medicine in the State, and desiring so to do, shall apply to the secretary of the board of examination, and pay a fee of $10 for the use of the board, which in no case shall be refunded. At a time appointed, or at the next regular examination, he shall prove that he has completed four entire sessions of twenty-six weeks each at a medical school recognized by the board, no two sessions having been held in one year, or, if such attendance was prior to the year 1899, three sessions shall suffice. He shall be examined in anatomy, chemistry, histology, obstetrics, pathology, physiology, preventive medicine, the diagnosis and treatment of medical and surgical diseases, and such other branches as the board shall deem advisable. After such examination the board, if seven members thereof consent, shall grant him a license to practice medicine. The examination shall be both scientific and practical and shall thoroughly test the fitness of the candidate. All answers concerning the treatment peculiar to any school of medicine shall be examined, and their efficiency passed on, by the members of the board belonging to that school, and their recommendations thereon shall be final. The board may refuse to grant a license to, or may revoke the license of any person guilty of immoral, dishonorable or unprofessional conduct, but subject to right of applicant to appeal to the Governor.

Sec. 2298. Record of Licenses—Report to Secretary.—Before engaging in practice, the holder of a license shall file the same for record with the Clerk of the District Court in the county where he resides. On removal to another county he shall there file his license in like manner before engaging in practice therein. Such Clerk shall keep, in the record book of such license, an index thereof, showing the date and page of record, and in January of each year shall furnish to the Secretary of the Board a list of licenses so filed. On notice to the Clerk of the death or removal of a license, or of the revocation of a license, he shall note the same on the record of such license.

Sec. 2299. Exemptions.—This subdivision shall not apply to commissioned surgeons of the United States army or navy, to physicians from other States in actual consultation here, or to students practicing under the direct supervision of a preceptor while they are enrolled in and regularly attending a recognized medical school.

Sec. 2300. Practicing Without License—Penalty.—Every person not heretofore authorized by law so to do who shall practice medicine in the State without having obtained the license herein provided for, and every person who shall so practice contrary to any provision of this subdivision, shall be guilty of a misdemeanor, the minimum punishment whereof shall be a fine of $50 or imprisonment for ten days. Any person shall be regarded as practicing within the meaning of this subdivision who shall append the letters M. D., or M. B., to his name, or for a fee prescribe, direct and recommend for the use of any fracture or bodily injury, infirmity or disease; provided this section shall not apply to dentists.

MEDICAL RECIPROCITY ACT.

Chapter 236. Laws 1905.

An Act Authorizing Physicians From Other States to Practice Medicine in Minnesota.

Be it enacted by the Legislature of the State of Minnesota:

Section 1. That the State Medical Examining Board, either with or without examination, may grant and license to any physician licensed to practice by a similar board of another State, and who holds a certificate of registration showing that an examination has been made by the proper board of any State on which an average grade of not less than 75 per cent. was awarded the holder thereof, the said applicant and holder of such certificate having been at the time of said examination the legal possessor of a diploma from a medical college in good standing in this State, which said diploma may be accepted in lieu of an examination as evidence of qualification. In case the scope of said examination was less than that prescribed by this State the applicant may be required to submit to an examination in such subjects as have not been covered. The fee for such examination shall be $50.

A certificate of registration or license issued by the proper board of any State may be accepted as evidence of qualification for registration in this State; provided, the holder thereof was at the time of such registration the legal possessor of a diploma issued by a medical college in good standing in this State, and that the date thereof was prior to the legal requirements of the examination test in this State.

Sec. 2. If by the laws of any State or the rulings or decisions of the appropriate officers or boards thereof, any burden, obligation, requirement, disqualification or disability is put upon physicians registered in this State or holding diplomas from medical colleges in this State which are in good standing therein, affecting the right of said physicians to be registered or admitted to practice in said State, then the same or like burdens, obligations, requirements, disqualifications or disability shall be put upon the registration in this State of physicians registered in said State or holding diplomas from medical colleges situated therein.

Sec. 3. All acts and parts of acts inconsistent with this act are hereby repealed.

Sec. 4. This act shall take effect and be in force from and after its passage.

Approved April 18, 1905.

(U. S. Census, 1910.)

Number of Physicians, 1,646.

Mississippi was organized as a territory April 7, 1798, and admitted as a state December 10, 1817. The total land surface is approximately 46,340 square miles. It extends from 30 degrees 20 minutes to 35 degrees north latitude, and from 88 degrees 12 minutes to 91 degrees 40 minutes west longitude, and is bounded on the north by Tennessee, on the south by Louisiana and the Gulf of Mexico, on the east by Alabama, and on the west by Arkansas and Louisiana.

The climate is warm, the winters being short and mild, the summers long and hot. The mean annual temperature as observed at Vicksburg is 65.57 degrees, that of the summer 80.52 degrees, and of the winter 50.45 degrees. The average annual rainfall is about 54 inches, ranging from 48 inches in the northwest to 64 on the Gulf coast. The northeastern is the highest part of the state and forms an undulating tableland, which slopes gently down towards the west and south, and terminates with steep bluffs on the banks of the Mississippi and Yazoo rivers. In several places these bluffs approach close to the river; in others a broad belt of swampy bottom lands extends along their base. The northwest part of the state includes the largest of these swampy regions, which are extremely fertile. The state is well watered. The principal rivers are the Mississippi and its tributaries, the Yazoo, Big Black, Tallahatchie, Sunflower, Bayou, Pierre, Yallabusha and Homochitto, and their tributaries, the Pearl, which empties into the Mississippi sound, the Pascagoula river, which is formed by the Leaf and Chickassawha rivers and empties into the Gulf, and the Tombigbee, which drains the northeastern portion. The Tennessee river touches the northeast corner of the state for about fifteen miles. The soil is, on the whole, very productive, being a dark heavy loam, impregnated with lime and yielding heavy crops. Cotton is the staple product, the state ranking second in the country as a cotton-producing state. The cereals, tobacco, indigo, sugar, rice, sweet potatoes, strawberries, melons, vegetables and numerous tropical fruit are raised in abundance. Live stock raising is an important industry. Tar, resin, turpentine, lumber and jute are exported. Education is amply provided for, and the religious, social and philanthropic institutions are in keeping with the wealth and population of the state.

THE LAW REGULATING THE PRACTICE OF MEDICINE IN THE STATE OF MISSISSIPPI.

CHAPTER 110, ANNOTATED CODE, 1906.

3681 (3243). Duty to Obtain License.—Every person who desires to practice medicine must first obtain a license to do so from the State Board of Health; but this section shall not apply to physicians now holding permanent license, the same having been recorded as required by law. (For penalty, see section 1334: If any person shall practice as a physician or surgeon without having first been examined and obtained a license as required by law, he shall, on conviction, be fined not less than tweny dollars nor more than two hundred dollars, or be imprisoned in the county jail not exceeding thirty days.)

3682 (3244). How License Obtained.—Every person who desires to obtain a license to practice medicine must apply therefor, in writing, to the State Board of Health, and must be examined by said board touching his learning in the following branches of medicine only, viz: Anatomy, chemistry, obstetrics, materia medica, physiology, pathology, surgery, and hygiene and, if the applicant be found by the board, upon examination, to possess sufficient learning in said branches and be of good moral character, the board shall at once issue to him a license to practice medicine, which shall be signed by each member who approves of its issuance. No applicant shall be granted a license unless said applicant shall hold a diploma from a reputable medical college that requires a four years' course of at least thirty-two weeks each session.

3683 (3245). Application for License—What to Contain.—The application for license must state: (1) The applicant's name in full; (2) his place of residence and post office address; (3) his nativity and age; (4) the time spent by him in medical studies; (5) the name and post-office address of the preceptor under whom medical studies were pursued; (6) courses of medical lectures attended; (7) name of medical school attended; (8) if a graduate of a medical college, name thereof; (9) time spent in a hospital; (10) time spent in the practice of medicine, if any; (11) school or system of practice chosen, and (12) references as to his personal character.

3684. (3246.) Examinations, When, Where and How Conducted (Laws 1898, ch. 79).—The State Board of Health shall meet at the capitol twice in each year, at such times as may be designated by the board, for the purpose of examining applicants for license to practice medicine, and shall continue in session until all applicants are examined and the examinations approved or disapproved. All examinations as to applicant's learning shall be upon written questions and answers, and

the distinctions shall not be made between applicants because of the different systems of schools of practice that may be chosen.

3685 (3247). Fees for Examination.—Every person who shall apply for license to practice medicine shall, before he will be entitled to be examined, pay a fee of ten dollars and twenty-five cents; of which ten dollars are to be divided equally between those members of the board who attend and conduct the examination of the applicant, and twenty-five cents to be paid to the Secretary of the Board for filing and preserving the application for license.

3686 (3248). Form of License.—A license to practice medicine may be of such form as the State Board of Health may prescribe; but it shall contain a statement showing the place of residence, post-office address, and qualification of the applicant, both as to learning and moral character.

3687 (3249). License Must be Recorded—Effect of Failure.—Every person who receives a license to practice medicine must file it in the office of the Clerk of the Circuit Court of the county in which he resides within sixty days from the date of its issuance; otherwise it shall become void. When the license is filed the Clerk shall record the same, with his certificate of the filing thereto attached, in a suitable book to be kept in his office for that purpose, upon the payment by the licensee of the fee provided by law; and, when recorded, he shall deliver the original, on demand, to the licensee. Whenever the licensee shall change the county of his residence and of usual practice, he must, under like penalty, file the original or a certified copy of the license, or of the record thereof, in the office of said Clerk in the county into which he shall move and practice, within sixty days of the time of such removal, to be there recorded in like manner and under like penalty.

3688 (3250). Lost License May be Supplied (Laws 1898, ch. 76).—If a license to practice medicine be issued and be lost, or if the holder of a license fail to have the same recorded within sixty days as required by law, the State Board of Health may, in its discretion, issue a new license.

3689 (3251). Temporary License.—The Secretary of the State Board of Health may issue under his signature a temporary license to any one to practice medicine, which shall be valid until the next succeeding meeting of the board for examining applicants; and such license shall show the date of its issuance, otherwise it shall be void. Only one temporary license shall ever be issued to the same person, and it shall always be made to an individual and not to a partnership. The secretary shall be entitled to twenty-five cents for such license, and the same shall be recorded as a permanent licence is required to be, under like penalty for failure.

> "A physician who practices medicine in this State without a license cannot recover for professional services rendered a patient while so practicing, even though prior thereto he had had a temporary license and was prevented by sickness from obtaining a permanent one." Bohn v. Lowery, 77 Miss., 424 (27 So., 604).

3690 (3253). Females Practicing Midwifery.—Females engaged in the practice of midwifery are not prohibited from such practice, but are entitled to engage therein without a license.

3691. Practice of Medicine Defined (Laws 1896, ch. 69.)—The practice of medicine shall mean to suggest, recommend, prescribe, or direct for the use of any person, any drug, medicine, appliance or other agency, whether material or not material, for the cure, relief, or palliation of any ailment or disease of the mind or body, or for the cure or relief of any wound or fracture or other bodily injury or deformity, or the practice of obstetrics or midwifery, after having received, or with the intent of receiving therefor, either directly or indirectly, any bonus, gift, profit or compensation; provided, that nothing in this section shall apply to females engaged solely in the practice of midwifery.

> "A practitioner of osteopathy, who treats diseases only by manipulation of the patient's limbs, muscles, ligaments and bones, does not practice medicine within the meaning of this section." Hayden v. State, 81 Miss., 291 (33 So., 653).

3692 (3254). Non-residents.—Licensed physicians who reside without this State and whose practice of medicine extends into it, may obtain license to practice medicine in this State without being examined as to their learning, by presenting a written application for license, in the form prescribed, to the State Board of Health; whereupon the Secretary of the Board shall issue to the applicant a license in the name of the board for which the secretary shall be entitled to receive a fee of twenty-five cents, and the license shall be recorded as hereinbefore provided in each county in which the licensee shall practice, with like penalty for a failure to record as in case of a resident physician. That non-resident physicians not holding license from the State shall not be permitted to practice medicine under any circumstances after remaining in the State five days, except when called in consultation by a licensed physician residing in this State, except as provided in section 3693.

3694 (3255). Books, Blanks and Stationery.—The Board of Public Contracts shall furnish to the State Board of Health such books, blanks, and stationery as may be needed by it in carrying out the provisions of this chapter; and, at the request of the State Board of Health, shall deliver to the Secretary of State, such record-books as the clerks of the Circuit Court may need, in which to record licenses to practice medicine, to be by him promptly and safely transmitted at the cost of the State to such of said clerks as the Board of Health may designate.

3695. Communications Privileged.—All communications made to a physician or surgeon by a patient under his charge or by one seeking professional advice, are hereby declared to be privileged, and such physician or surgeon shall not be required to disclose the same in any legal proceeding, except at the instance of the patient.

3696. Osteopaths.—Any person desiring to practice osteopathy in this State must first obtain a license from the State Board of Health by passing a satisfactory examination on anatomy, physiology, and hygiene only; provided, that graduates of a reputable college of osteopathy now engaged in that practice in this State shall not be examined as to learning, but they shall make satisfactory proof of such graduation and of good character, and pay a fee of twenty-five cents. License to practice osteopathy must be recorded as required by law for license to practice medicine, with like penalty on failure to so record.

NOTE.—Examinations for applicants for license to practice medicine in this State will be held at the capitol on the second Tuesday in the months of May and October in each year; two days being required for the examination.

S. H. McLEAN, M. D.,
Secretary.

MISSOURI,

CAPITAL, JEFFERSON CITY.

Population of State, 3,293,335.
(U. S. Census 1910.)
Number of Physicians, 6,136.

Missouri is part of the territory that was ceded to the United States under treaty dated April 30, 1803, and was known as the Louisiana purchase ,and by Act of Congress was organized as the Territory of Louisiana, October 31, 1803, which on March 13, 1804, was divided into the Territory of Orleans, which embraced all the territory south of the 33rd degree, and the District of Louisiana, from the 33rd degree north. The District of Louisiana was changed into the territory of the same name, March 3, 1805. The Territory of Louisiana was changed into the Territory of Missouri by Act of Congress dated June 4, 1812. On August 10, 1821, the territory was admitted to the Union as a state with 24 counties. As now constituted, the state comprises 114 counties and the city of St. Louis.

It is bounded on the north by Iowa, on the south by Arkansas, on the east by the Mississippi river, which separates it from Illinois, Kentucky and Tennesee, and on the west by Indian Territory, Kansas and Nebraska. This is one of the most diversified of western states as to soil, products, climate and surface and extends through four and one-half degrees of latitude. The elevation of the land varies from 287 feet in the southeast to 3,000 feet at Cassville. The Mississippi forms its eastern frontier and the Missouri borders it for a long way on the west. A line drawn from Hannibal to the southwestern corner of Missouri separates the prairie region of the north and west from the forest region on the east and south. North of the Missouri is a region of broken land with forests in the east and along the great rivers, and the rest is occupied by wide rolling prairies well watered and productive, and in effect a prolongation of the plains of Illinois and Iowa. Similar high grassy plateaus run west from the Ozark Mountains, and from the Mississippi to the Big Black. South of the Missouri the forests of the east are offset by these open prairies of the west, with large rivers, like the Osage and Gasconade, running northeast into the Missouri.

The Ozark Mountains run from the Missouri river east of the Osage, southwest into Arkansas and Kansas, changing from isolated hills and knobs to the high and arable tablelands of the west.

The climate is full of extremes, being devoid of moderating sea-air or sheltering hill ranges. It is dry, owing to the rapid evaporation; and the sky is usually clear and bright. The least rain falls in April.

Sec. 8317. Authority of State Board of Health to Issue or Revoke Licenses to Practice Medicine.—The board may refuse to license individuals of bad moral character, or persons guilty of unprofessional or dishonorable conduct, and they may revoke licenses, or other rights to practice, however derived, for like causes, and in cases where the license has been granted upon false and fraudulent statements, after giving the accused an opportunity to be heard in his defense before the board as hereinafter provided. Habitual drunkenness, drug habit or excessive use of narcotics, or producing criminal abortion, or soliciting patronage by agents, shall be deemed unprofessional and dishonorable conduct within the meaning of this section, but these specifications are not intended to exclude all other acts for which licenses may be revoked. At least twenty days prior to the date set for any such hearing before the board for the revocation of such license, the Secretary of the Board shall cause written notice to be personally served upon the defendant in the manner prescribed for the service of original writs in civil action. Said notice shall contain an exact statement of the charges and the date and place set for the hearing before the board. If a majority of the board are satisfied that the licentiate is guilty of any of the offenses charged, the license shall be revoked for such period of time as may be agreed upon. Any person whose license has been or shall be revoked by the board shall have the right to have the proceedings of said board revoking his license and all the evidence therein reviewed, or a writ of certiorari, by the Circuit Court of the county in which said board held its session when said license was revoked. Said writ shall issue upon the petition of the person whose license shall have been revoked to said court or to the clerk thereof in vacation at any time within ninety days after such revocation, and shall command the said board and the secretary thereof to certify to said court the record and proceedings of said board, and a complete transcript thereof, and of all evidence therein pertaining to the revocation of said license. The petitioner for the writ of certiorari shall set forth the rights of the petitioner and the injuries complained of by him and shall be verified by him. If the proceedings of the board shall be sustained or upheld by the Circuit Court, its orders, decisions or judgments revoking said license shall remain and continue in full force and effect. And any such license so revoked by the board shall, pending said review on certiorari, stand revoked and so remain until the proceedings of the board relating thereto shall be quashed or otherwise annulled by the Circuit Court on said writ of certiorari. Testimony may be taken by deposition, to be used in evidence on the trial of such charges before the board in the same manner and under the same rules and practice as is now provided for the taking of depositions in civil cases. (Laws 1901, p. 207; amended Laws 1907, p. 359; Laws 1909, p. 667.)

BONNER SPRINGS LODGE

BONNER SPRINGS, KANSAS

(A Suburb of Kansas City, Mo.)

A pleasant home for nervous invalids and narcotic habitues. The attention of the medical profession is respectfully called to the advantages offered at this institution in the care and treatment of Hysteria, Neurasthenia, Melancholia, Morphinism, Inebriety and the various psychoses. For the disorders mentioned a skillful combination of the family plan, or home treatment, with the appliances and regime of a first-class sanitarium are to be found at the Lodge. Far removed from the dust and heat of the city, the clang of car bells and the many distractions of a commercial center, we have a handsome and commodious structure of fifty rooms with 500 feet of broad verandas, steam heat, sanitary plumbing, baths, electricity, abundant water of the finest quality, a high and sightly location, a beautiful lawn, a magnificent view of the Kaw river and valley, and a park of eighty acres, containing many medicinal springs of undoubted value.

The Lodge is under the daily personal supervision of Dr. Henry C. Hays, who is a member of the regular medical profession and devotes his exclusive attention to nervous and mental diseases.

Particular attention is called to the fact that a nurse is assigned to each patient. Although this involves some additional expense, experience warrants the statement that the investment is a good one, individual attention being the keynote to success in these cases.

The Lodge is conducted upon strictly ethical lines, no patronage being solicited except through the profession.

The charges are as low as may be obtained at any institution of similar character and equal grade.

MONTANA.

CAPITAL, HELENA.

Population of State, 376,053.
(U. S. Census, 1910.
Number of Physicians, 494.

The extensive area within the confines of Montana was a portion of Louisiana, as claimed and occupied by France, and became an integral part of the United States when President Jefferson concluded his big real estate deal with the first Napoleon, acquiring ownership of that immense tract of territory, mostly unexplored, and which is now the garden and treasure vault of the world. The portion of the purchase known as Montana became afterwards, as new states and territories were carved out, a part of Misouri, Oregon, Nebraska, Dakota and Idaho, and was created into a separate territory, with its present boundaries, May 26, 1864, and admitted as a state November 8, 1889.

The total land surface of Montana is, approximately, 145,310 square miles. It extends from 104 degrees to 116 degrees west longitude, and from 44 degrees 25 minutes to 49 degrees north latitude, and is bounded on the north by the Canadian provinces of Alberta and Assiniboia, on the east by the Dakotas, on the south by Wyoming and Idaho, and on the west by Idaho. The great area of the state can be better appreciated by giving its width north and south as 275 miles, and its average length east and west as 535 miles, and calling attention to the fact that it is the third largest of the states of the Union. Less than one-third of its area is occupied by the Rocky Mountains, and the lesser ranges and spurs, and the other two-thirds is about equally divided between range and agricultural lands. Besides the three great rivers—the Missouri, the Yellowstone and the Columbia—there are a number of other noble streams, notably the Jefferson, Madison, Musselshell, Gallatin and Deer Lodge rivers, as well as many small rivers and thousands of mountain streams. The state has a most exhilarating and healthful climate, abundance of the purest water and numbers of thermal springs impregnated with many healing qualificaties. The climate is milder than the latitude and elevation would seem to indicate the mean anuual temperature as observed at Helena being 43.04 degrees, that of the summer 70.28 degrees, and of the winter 19.16 degrees.

THE REVISED CODES OF MONTANA OF 1907, ARTICLE V.

REGULATIONS OF THE PRACTICE OF MEDICINE.

1585 (S.600). Qualifications, Appointment and Term.—The Governor, with the advice and consent of the Senate, shall appoint seven learned, skilled and capable physicians, who shall have been residents of the State of Montana for not less than two years preceding their appointment, not more than two of whom shall be from the same county, and who have attended three courses of lectures, and are graduates of accredited colleges of medicine, who shall constitute the Board of Examiners for the purposes of this act. The physicians so appointed shall hold their respective offices for seven years; provided, that the terms in office of those constituting the present board shall not be affected by the provisions of this act; and the terms of their successors shall be so arranged as to succeed the present incumbents as their terms expire; and provided, also that all vacancies occurring shall likewise be filled by appointment by the Governor by the advice and consent of the Senate. Appointments made when the Senate is not in session shall take effect immediately, and may be confirmed at the next ensuing session. (Act approved March 13, 1895.)

1586 (S. 601). Organization of Board—Register.—The Board of Medical Examiners must, on the first Tuesday of April of each year, elect from among their number a president, secretary and treasurer, and must have a seal. Four members of said board shall constitute a quorum. The president and secretary have the power to administer oaths in examination of applicants for certificates, and witnesses called before the board in the transaction of business under the provisions of this act. The Board of Examiners must hold meetings for examinations at the seat of government on the first Tuesdays of April and October of each year, and at such other times and at the same and other places as the board may determine. The board must keep a record of all proceedings thereof and also a register of all applicants for a certificate, with the age of the applicant, time spent in the study of medicine, and the name and location of all the institutions granting to such applicant degrees or certificates of lectures attended in medicine or surgery. The register must also show whether such applicant was rejected, or has received a certificate under this act; such register is prima facie evidence of all the matters therein kept. (Act approved March 13, 1895.)

State v. Court, 19 Mont. 506; 48 Pac. 1104.

1587. Examination of Applicants.—Every person hereafter wishing to practice medicine or surgery in any of the departments of this State shall apply to said board for a certificate so to do. Every person applying shall present his or her diploma to the said Board of Examiners for verification as to its genuineness; if the diploma is found to be genuine, and is issued by a medical school legally organized and in good standing whose teachers are graduates of a legally organized school, which fact said Board of Examiners shall determine, and if the person presenting and claiming said diploma be the person to whom the same was originally granted, at a time and place designated by said board or at a regular meeting of said board said applicant shall submit to an examination in the following branches, to wit; anatomy, physiology, materia medica, therapeutics, practice of medicine, surgery, obstetrics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear; and present evidence of having attended four courses of lectures of at least six months each, but such evidence of having attended four courses of lectures shall not be required of the applicants graduating prior to July 1, 1898. Said board shall cause such examination to be both scientific and practical, and of sufficient thoroughness and severity to test the candidate's fitness to practice medicine and surgery; when desired, such examination may be conducted in the presence of the dean of any medical school, or the president of any medical society in this State. After examination, such board, if the candidate has been found qualified, shall grant a certificate to such candidate to practice medicine and surgery in the State of Montana; which said certificate can be granted only by the consent of not less than four members of said board, and which said certificate shall be signed by the president and secretary of said board and attested by the seal thereof; provided, however, that in all cases where an applicant for a certificate under this section shall produce and exhibit to said Board of Examiners a certificate from a Board of Medical Examiners duly appointed and existing under the laws of any State of the United States and recognizing certificates or licenses from this State certifying to the fact that the person presenting such certificate is duly and well qualified to practice medicine and surgery in the State issuing said certificate, and that said board issuing said certificate has subjected the applicant to a thorough examination to ascertain this fact, or certifying to the fact that the person presenting such certificate is duly and well qualified to practice medicine and surgery in the State issuing said certificate; and to the further fact, if such is the case, that said applicant was exempt from examination under the provisions of the law of said State, by reason of his residence in said State in the active practice of medicine and surgery at the time of the passage in said State of said law requiring the examination of applicants to practice medicine and surgery; he or she may, at the discretion of said Board of Examiners, upon paying the fee required of applicants for examination under the provisions of section 1592 (607) of this article, and otherwise complying with all the requirements of this article, receive from said Board of Examiners a certificate to practice medicine and surgery within this State, and upon filing said certificate with the County Clerk of the county in which he resides, as is provided in section 1589 (604) of this article, he shall be a legally qualified practitioner of medicine and surgery in this State; provided, also, that during any period intervening between the sessions of said Board of Examiners, any person desiring to practice medicine in this State may present his or her diploma to the president or secretary of said board, who may issue a certificate good until the next regular meeting of said board; and provided, further, that all physicians and surgeons who hold certificates granted by the now existing Board of Medical Examiners, or who are now legally entitled to practice medicine and surgery in this State shall be exempt from the provisions of this section. (Act approved February 23rd, 1903.) (8th Sess. Chap. 13.)

1588. Examination of Applicants for Certificates—Revocation of Certificates—Appeals from Decision of Board.—No person not heretofore licensed to do so shall be permitted to practice medicine in the State of Montana unless he shall have first been subjected to a thorough examination as to his qualifications, learning and professional skill by the State Board of Medical Examiners, nor until he has been issued a certificate by such board after such examination admitting him to practice as a physician and surgeon in the State of Montana. The board may refuse to grant a certificate for unprofessional, dishonorable or immoral conduct. Before a certificate can be refused for such cause, the board must serve, in writing, upon the applicant, a copy of any chare or charges against him, and appoint a day for hearing, at which the applicant or any witness in his behalf may appear and give testimony in refutation of such charges. In case the board, after such hearing refuse a certificate to the applicant, the decision specially stating the ground upon which such refusal was made must be reduced to writing and a copy thereof delivered to the applicant upon demand. Upon a like hearing the board may refuse a certificate to any one who may publicly profess to cure or treat disease, injury or deformity in such a manner as to deceive the public. The hearing provided for herein must take place within twenty days after the service of the copy of the charges upon the applicant, unless further time is granted to the applicant, and the decision of the board must not be later than ten days after the day of hearing. If the decision is not rendered within said period of ten days, the applicant is not subject to any penalties for practicing without a certificate during the time that elapses before the decision is made. The board, with the concurrence of four members thereof, may revoke a certificate for unprofessional, dishonorable or immoral conduct. Before such revocation can take place, a written complaint specifically stating the charges against the person whose certificate is sought to be revoked must be delivered to the board and a copy thereof be served upon such person twenty days before the time fixed by the board for the hearing of such charges. The board must fix the time and place for the hearing, at which the person charged may appear and produce testimony in refutation of such charges. If after such hearing, the board revoke the certificate of such person, the ground upon which such revocation is made must be specifically stated by the board in writing and a copy thereof delivered, on demand, to the person whose certificate is revoked. In all cases of the refusal or revocation of a certificate to practice medicine by said board, the person aggrieved thereby may appeal from the decision of the board as hereinafter provided. An appeal may be taken from the action of the State Board of Medical Examiners in refusing to issue a certificate to practice medicine and surgery to any applicant after examination or from the action of said board in revoking the certificate of any physician or surgeon, to the District Court of the county in which such revocation or refusal was made. The appeal is taken by serving notice of appeal upon the Secretary of the Board of Medical Examiners and the Attorney General of the State within thirty days after notice from the Board of Medical Examiners of its decision by filing within the same time with the Clerk of the proper District Court, a verified copy of the decision from which appeal is taken, together with a verified copy of any charge or charges preferred against the applicant and filed with the Board of Medical Examiners. The appellant is required, at the time of filing such appeal, to furnish and file with the Clerk of the court a good and sufficient bond to be approved by the Clerk of the court, with two good and sufficient sureties, in the sum of three hundred dollars, guaranteeing the payment of all costs of the appeal should the case be decided against the appellant, and the costs shall consist of the Sheriff's fees for serving jurors, jurors' fees, and the fees of the Clerk of the court. Such appeal shall thereafter be tried by the District Court before a jury of six physicians—not less than two of whom shall be of the same school of medicine as the appellant—and in case such jury cannot be obtained in the county where the case is tried, the judge of such court shall order subpoenas for physicians from any adjoining county or counties, which subpoenas shall be served by the Sheriff of such adjoining county upon receipt, after the Clerk of the court where the subpoena is issued shall have sent by registered mail, such subpoena to such Sheriff.

Bias or prejudice or fixed opinion shall constitute a ground of challenge to a juror for cause, and the appellant and the Medical Board shall each have the right to peremptorily challenge not more than two of such jurors. When the jury shall have been selected and sworn to try the cause, they constitute a higher examining board for the purpose of enquiring into whether or not the judgment of the Board of Medical Examiners should be affirmed or overruled upon the issues presented to such board, and such jury may make such examination of the appellant as they may deem necessary or desirable. It shall take four of the jury to render a verdict, and no member of the Medical Board is qualified to act as a juror. The Attorney General is hereby made the attorney for said board. Jurymen subpoenaed under this act shall be entitled to mileage at the rate of ten cents per mile for each and every mile by them actually traveled in attending upon the court, and of three dollars per day for their services. (Act approved March 5, 1907.) (10th Sess. Chap. 100.)

1589. (S. 604.) Certificate Must be Recorded.—Every person obtaining a certificate from the Board, must, within sixty days from the date thereof, have the same recorded in the office of the County Clerk in the county wherein he resides; if he removes from one county to another to practice medicine or surgery, his certificate must immediately be recorded in the county to which he removes. The County Clerk must indorse upon the certificate the date of record, and he is entitled to charge and receive his usual fees for such services, the fee to be paid by the appellant. Until the certificate be recorded, as provided by this section, the physician practicing under it is subject to the penalties prescribed in the penal code for practicing without a certificate. (Act approved March 13, 1895.)

1590. (S. 605.) Exceptions.—This act shall not apply to midwives of skill and experience, commissioned surgeons of the United States army and navy in the discharge of their official duties, nor to physicians and surgeons in actual consultation from other States and Territories. (Act approved March 13, 1895.)

1591. Practicing Medicine Without Certificate—Penalties.—Any person practicing medicine or surgery within this State without first having obtained a certificate

Nothing in this act shall prohibit any legally licensed pharmacist or mercantile dealer from selling any drugs or medicines which are now allowed to be sold under the laws of the State of Montana or the United States. (Act approved March 5, 1907.) (10th Sess. Chap. 101.)

1592. Fees for Examination Before State Board.—Candidates for examination shall pay in advance to the Secretary of the Board of Medical Examiners a fee of twenty-five dollars, which fee shall defray the entire expense of said candidates for examination before the aforesaid Board of Examiners. Any one failing to pass the required examination shall be entitled to a second examination within six months, without fee. And the money so received shall be turned over to the State Treasurer, to be by him deposited in the Medical Board Fund, as hereinafter provided. (Act approved March 6, 1907.) (10th Sess. Chap. 114.)

1593. (S. 608.) Compensation—Medical Board Fund.—Each member of the board is hereby allowed the sum of five dollars per day and mileage while in the active and necessary discharge of his duties. And there is hereby established a fund to be known at the Medical Board Fund. And a sum of fifteen hundred dollars is hereby annually appropriated out of any moneys in the State Treasury not otherwise appropriated to meet the expenses incurred in carrying out the provisions of this act. The State Treasurer is hereby directed and required to set such sum apart to the credit of such fund, subject to the orders and disbursements as herein provided for. The money in such fund shall only be paid out by warrant on said fund, on an order drawn by the secretary of said board, countersigned by the president. The rate of mileage and attendance before said board shall be the same as is now allowed in Justice of the Peace courts. And the board must report annually on the first Monday in November to the Governor, which report must show all the transactions of the board, giving the number of applications received, and from whom received, the number of certificates granted and rejected, and the names of those receiving certificates and those rejected, giving the reasons therefor, the amount of money received, the expenses, the fees and mileage paid, and by whom received, and the amount of money remaining in said fund. NEBRASKA.

NEBRASKA.
CAPITAL, LINCOLN.

Population of State, 1,192,214.
(U. S. Census, 1910.)
Number of Physicians, 1,697.

Nebraska came into possession of the United States April 30, 1803, as part of the Louisiana purchase. It was a part of the Missouri territory most of the time until May 30, 1854, when it was formed into a separate territory and was admitted as a state March 1, 1867. The total land surface is, approximately 76,840 square miles. It extends from 40 degrees to 43 degrees north latitude, and from 94 degrees 25 minutes to 104 degrees west longitude, and is bounded on the north by South Dakota, on the south by Kansas and Colorado, and on the east by Iowa and Missouri, and on the west by Colorado and Wyoming. The climate is salubrious, the mean annual temperature as observed at Omaha being 49.28 degrees; that of summer 74.26 degrees, and that of the winter 23.36 degrees.

Nebraska is part of that vast plain which extends along the eastern base of the Rocky Mountains and gently slopes down towards the Mississippi river. The surface is flat or gently undulating. The soil consists for the most part of a black and porous loam, which is slightly mixed with sand and lime. The streams flow in deeply eroded valleys with broad alluvial bottoms of the greatest fertility, which are generally well timbered with cottonwood, poplar, ash and other deciduous trees. The uplands are undulating prairies, presenting an almost unlimited field for stok raising and wool growing.

Withing the boundaries of Nebraska are vast areas of the most fertile and productive soil on the continent. It is nearly all arable and every acre is available either for pasture or farming. There is almost an entire absence of waste land. The Platte, Republican, Elkhorn, Loup and Niobraro are the principal interior rivers, all moving from west to east or southeast. Each of these large streams has numberless tributaries. The bottom lands along the rivers are especially fertile, though hilly land is much preferred for general farming. A superior system of public schools, and an inexhaustibe state fund from which to maintain them; churches in every village and almost every valley; railroads fairly gridironing the state, and a most invigorating and healthy climate combine to make Nebraska desirable in every sense of the term for a residence.

SYNOPSIS OF NEBRASKA MEDICAL PRACTICE ACT.

WHO MAY PRACTICE.

It shall be unlawful for any person to practice medicine, surgery or obstetrics or any of the branches thereof, in this State, without first having applied for and obtained from the State Board of Health a license so to do. Application therefor shall be in writing, and shall be accompanied by the examination fees hereinafter specified and with proof that the applicant is of good moral character. Applications from candidates who desire to practice medicine and surgery in any or all their branches shall be accompanied by proof that the applicant is a graduate of a medical school or college in good standing, as defined in section eight (8) of this article. When the application aforesaid has been inspected by the board and found to comply with the foregoing provisions, the board shall notify the applicant to appear before it for examination at the time and place mentioned in such notice. Examinations may be made wholly or in part in writing by the board and shall be of a character sufficiently strict to test the qualifications of the candidate as a practitioner. The examination of those who desire to practice medicine and surgery in any or all their branches shall embrace those subjects and topics, a knowledge of which is commonly and generally required of candidates for the degree of doctor of medicine by reputable colleges in the United States. All examinations provided for in this act shall be conducted under rules and regulations prescribed by the board, which shall provide for a fair and wholly impartial method of examination. It is also provided that examinations on practice of medicine and therapeutics shall be conducted by the member, or members, of the Board of Secretaries, who are of the same school of medicine as that of the applicant. And it is further provided, that the said State Board of Health, may at their discretion, admit, without examination, legally qualified medical practitioners, who hold certificates to practice medicine in any State with equal requirements to those of the State of Nebraska.

MEDICAL SCHOOL DEFINED.

The term medical school or college in good standing, shall be defined as follows, to-wit: A medical school or college requiring a preliminary examination for admission to its course of study in all the common branches, and in Latin and the higher mathematics, which requirements shall be regularly published in all the advertisements and in each prospectus or catalogue issued by said school, which medical school or college shall also require as a requisite for granting the degree of M. D., attendance upon at least four courses of lectures of six months each, no two of said courses to be held within one year, and having a full faculty of capable professors in all the different branches of medical education, to-wit: Anatomy, physiology, chemistry, toxicology, pathology, hygiene, materia medica, therapeutics, obstetrics, bacteriology, medical jurisprudence, gynecology, principles and practice of medicine and surgery, and specially requiring clinical instruction in the two last named of not less than four hours per week in each during the last two courses of lectures; provided, that this four years clause shall not apply to degrees granted, or to be granted, prior to August, 1898.

DIPLOMAS.

It shall be the duty of all persons intending to practice medicine, surgery or obstetrics in the State of Nebraska before beginning the practice thereof, in any branch thereof, to present his diploma to said board, together with his affidavit that he is the lawful possessor of the same, that he has attended the full course of study required for the degree of M. D., and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such official if he has a seal, and any person swearing falsely in such affidavit shall be guilty of perjury and subject to the penalty therefor.

If, upon investigation of the proofs submitted to the board, and after the examination, as hereinafter provided, the applicant shall be found entitled to practice, there shall be issued to said applicant the certificate of said board under its seal and signed by its secretaries stating such fact, and it shall be the duty of the applicant before practicing to file such certificate or a copy thereof in the office of the County Clerk in the county in which he or she resides or in which he or she intends to practice; such certificate or copy shall be filed by the County Clerk and by him recorded in a book kept for that purpose, properly indexed, to be called the "Physicians' Register," and for such services the County Clerk shall receive from the applicant the same fees as are allowed to the Register of Deeds for the recording of conveyances.

Sec 19. Every holder of a diploma from a recognized medical college within the State of Nebraska, making application for an examination and certificate under the

provisions of this act, shall pay to the Board of Secretaries prior to his examination the sum of ten ($10) dollars. All other persons making such application shall pay to said board the sum of twenty-five ($25) dollars. All such fees shall be equally divided among the four Secretaries of the Board as full compensation for their services and expenses. For the taking of any testimony each of the secretaries shall be entitled to charge and receive such fees as are provided for notaries public for similar services. No part of such fees shall be paid out of the State Treasury.

This act shall take effect and be in force from and after August 1st, 1903.

SPECIAL RULES OF THE BOARD.

Each applicant for examination must present to the board letters of recommendation from two registered physicians of the State or such others as may be satisfactory to the board.

Applications must be on file at least ten days before the date of examination.

RULES OF THE NEBRASKA STATE BOARD OF HEALTH FOR CONDUCTING MEDICAL EXAMINATIONS.

1. An examination is required of each and every one before a license is granted to practice medicine in Nebraska. The law requiring such procedure went into effect August 1, 1903, and will be enforced from that date. Reciprocity is permitted under the Nebraska law with States having requirements of the same standard as those of Nebraska.

2. Each applicant is required to fill and acknowledge application blank furnished by the board. The affidavit must be corroborated by the exhibition of his diploma.

3. Each applicant, if he graduated after August 1, 1898, must show proof that he has attended four full courses of lectures at a recognized medical college, no two courses being in the same year.

4. Each applicant, if he graduated after August 1, 1891, and prior to August 1, 1898, must show proof that he has attended three full courses of lectures at a recognized medical college, no two courses being in the same year.

5. Applicants who graduated at a recognized medical college prior to August 1, 1891, must show proof of having attended two full courses of lectures.

6. A fee of $25 must be paid on filing the application for examination, except that for graduates of medical colleges located in Nebraska the fee is $10. The fee is not returnable in case of failure to pass or non-appearance for examination.

7. Examinations are always in charge of one or more members of the State Board of Health.

8. Each candidate is known by his number, which is arranged as follows: Envelopes are numbered and each contains a blank bearing the corresponding number on which the applicant writes his name and address, this completed blank is returned by the applicant to the envelope and the envelope sealed by him.

9. Each candidate places on his answer papers the number given him; no other marks of identification are allowed on the answer papers.

10. The answer papers are collected and at once sent by express to the member of the board having charge of that subject. Each member examines the answer papers and marks each candidate by placing the marking opposite the candidate's number. These markings are sent to the secretary, who tabulates them and presents the same to the members of the board at a meeting which is held shortly after each examination. When the markings are completed, the envelopes containing the names are opened and these names are placed opposite the corresponding numbers.

11. No dishonest methods are tolerable and any candidate who disregards this rule is debarred from further examination. This rule includes the giving or obtaining aid.

12. Ten questions are given on each paper, and all subjects for examination are covered by the question papers given.

13. The time allowed for each examination paper shall not exceed two hours.

14. No candidate is allowed to leave the room after the question papers have been distributed until he has completed his answers and delivered the same to the member in charge.

15. The examination is in writing and in the English language.

16. A general average at 75 must be attained. Any candidate failing to secure an average of 75 shall be considered to have failed utterly and shall not be entitled to another examination on that application.

17. Candidates from all schools shall answer in common all questions submitted except the questions in materia medica and practice, which are adapted to the school of practice accepted by the candidate. The answer papers upon subjects peculiar to any one school of medicine are sent to the members of this board who are representatives of such school.

18. Candidates shall submit to an examination in the following branches, to-wit: Anatomy, physiology, chemistry, materia medica and therapeutics, practice of medicine, surgery, obstetrics and diseases of women, pathology and such other branches as the board shall deem advisable.
